

ENGLISH 11 WEEKLY PLAN
MARCH 16-20, 2020

Here's the plan for the week!

1. Gatsby Project <http://www.huffenglish.com/gatsby/gatsbyhunt.html>

Work with **up to 4 people** (in any English 11 hour) to create a powerpoint presentation containing the answers to the questions posed in the treasure hunt. It is up to your group to determine who will do which slides. Slides should not only include answers to the questions, but interesting and relevant graphics/design/clip art to go with the particular topic of the 1920s and information should be organized logically with clear introduction to full topic slide, transitions included between topics with either individual slides or information included at top of each slide, and a complete conclusion and concluding thought.

2. 1920's vocab...10 words taken specifically from your 1920s research defined, plus 2 used in class content-related sentences and 2 drawn or shown in clip art form. You may type these this week and share them.

3. F. Scott Fitzgerald Biography Video (available later this week--due after Spring Break).

By Friday, March 20, you need to have vocab completed, all late work turned in and the outline of your project shared with me that includes the names of group members and the introduction slide that includes text that indicates not only the subject but also the depth of the information to be presented.

As far as communication with you during our time out of school, I will keep assignment information on my teacher website (on the district website) as well as email you with updates or further information. If you have questions, email me as I will check email all the time, even in the evening.

Best wishes for a good digital experience in your learning and good health to you and your family.

Ms. Lit
